

## Hotelzon and Travelport collaborate to create world's largest online inventory

**Hotelzon collaborates with Travelport to offer a richer choice for travel agents and corporates by providing the largest online hotel inventory in the world! Once the integration is completed in April 2011, the inventory will comprise 140,000 hotels.**

Through the integration, Hotelzon will connect via Travelport's Universal API™ (application programming interface) directly to the Galileo platform, thereby fully integrating GDS hotel content as well as supporting agents' mid and back office processes.

Cooperation with Travelport strengthens Hotelzon's service offering which enables joint customers to process bookings more efficiently. This multi-portal creates a significant inventory of GDS and non-GDS properties that are available to our joint travel agency customers.

Customers of both Hotelzon and Travelport can now seamlessly connect with a booking solutions platform enriched with hotel content from both partners, which is supported by a streamlined back office processing system.

### About Hotelzon

- Hotelzon is a leading corporate online hotel booking company that offers booking services and technology to corporate clients, hotels and agency partners. The Hotelzon proprietary booking system offers live availability, rate information and booking functionality for over 100,000 hotels worldwide.
- Hotelzon has an extensive customer base – in total the corporate client base exceeds 15,000 customers. Hotelzon processed more than 1.5 million room nights in 2010.
- The Hotelzon International Group has a staff of around 130 in four country subsidiaries – Finland, Sweden, APAC and UK. The company is privately owned and headquartered in Helsinki, Finland.
